WAYS TO PLAY

OBJECTIVE

Whichever of the 5 games you play, the goal is always the same: be the fastest player to spot the matching symbol and call it out.

GAME 1: EYEDROP

Goal: Be the first player to get rid of all your cards.

Set up

- 1 Place one card face up in the middle of the table.
- 2 Shuffle and deal all the remaining cards face down to all the players.

How to play

- 1 At the same time, players flip their entire card piles over so they are face up.
- 2 Try to spot the one symbol that appears on both your top card and the centre card.
- 3 If you are the first to identify the matching symbol, call it out, for example “Watermelon!”, and place your card on top of the centre pile.
- 4 Use the new card revealed in your hand to find a match with the centre card.
- 5 Play continues until one player runs out of cards.

Winning: The first player to run out of cards wins the game.

GAME 2: EYE SNATCH

Goal: Collect the most cards.

Set up

- 1 Shuffle the cards and deal one card face down to each player.
- 2 Place the remaining cards face up in the middle of the table to form the draw pile.

How to play

- 1 At the same time, players turn over their cards.
- 2 Try to spot the one symbol that appears on both the centre card and your own card.
- 3 If you are the first to identify the matching symbol, call it out, for example "Palm tree!"
- 4 Take the centre card and place it face up on top of your flipped card, building a personal pile.
- 5 The newly revealed centre card becomes the card used to find a match.

Winning: The player with the most cards wins.

GAME 3: EYE GRAB

Goal: Collect the most cards from the other players.

Set up

- 1 Shuffle the cards and deal out all the cards to the players.
- 2 Place your pile of cards face down in front of you.

How to play

- 1 At the same time, players turn over the top card of their pile and place it face up on the table in front of them.
- 2 Look at the face-up cards on the table and try to spot a matching symbol between your card and another player's card.
- 3 If you spot a match, call out the matching symbol and take the other player's card.
- 4 Place the card you won face up in your own pile.
- 5 Continue by turning over the next card from your pile.

Winning: The player with the most cards at the end of the game wins.

GAME 4: EYE DUMP

Goal: Have the fewest cards.

Set up

- 1 Shuffle the cards and deal one card face down to each player.
- 2 Place the remaining cards face up in the middle of the table to form a draw pile.

How to play

- 1 At the same time, players turn over their cards.
- 2 Try to spot a match between the centre card and any other player's card.
- 3 If you spot a match, call it out.
- 4 Take the centre card and place it on top of the other player's card where you found the match.
- 5 The card revealed on the centre stack becomes the new card used to find a match.
- 6 Play continues until there are no more cards in the centre draw pile.

Winning: At the end of the game, count the cards you collected from other players. The player with the fewest cards wins.

GAME 5: THIRD EYE

Goal: Find a symbol that appears on 3 different cards.

Set up

- 1 Place 9 cards face up in a 3 × 3 grid.
- 2 Place the rest of the cards face down in a draw pile.

How to play

- 1 At the same time, players try to find a matching symbol that appears on 3 cards.
- 2 As soon as you find a symbol on 3 cards, call it out and collect those 3 cards.
- 3 Replace the empty spaces on the table with 3 new cards from the draw pile.
- 4 When there are fewer than 9 cards left and no more sets of 3 matching cards can be found, the game ends.

Winning: The player with the fewest cards wins the game.
